(a) Paragraph (b) of CMP Regulation No. 2 prohibits the acceptance of delivery of an item of controlled material if a person's inventory will become, because of the delivery, or already is, in excess of the amount permitted by the regulation. Priorities Regulation No. 1, § 944.14, makes a similar restriction. If material is acquired within these restrictions, neither regulation prohibits the mere possession of an inventory if a change in circumstances makes it greater than the amount they permitted. For instance, if based upon current rate of production a manufacturer's permitted inventory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically, the mere fact that he has an inventory of 100 tons, although his permitted inventory may be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of steel until his inventory has been reduced below 10 tons (except as provided in paragraphs (c) (2) and (c) (4) of CMP Regulation No. 2, relating to material already shipped and special items).

(b) Similarly, the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between them and by contract law.

## Chapter XI—Office of Price Administration

### PART 1432—RATIONING OF CONSUMERS' DURABLE GOODS

[RO 9C]

#### NEW COOKING STOVES FOR PUERTO RICO

*Preamble.* The War Production Board has determined that the curtailment of the production of stoves as an aid to conservation of scarce material and manpower requires the establishing of a program to effect a fair distribution of the limited supply available for civilian use. The Puerto Rico District Office of the War Production Board after an extensive study has determined that in order to distribute cooking stoves in Puerto Rico, this equipment should be rationed by the Office of Price Administration.

Ration Order 9C establishes a program whereby the available gasoline, gas and kerosene cooking stoves will be fairly distributed among consumers. Eligibility standards which consumers have to meet to be entitled to a stove certificate have been established and a quota system is instituted under this program in order to balance supply and distribution.

The Army, Navy, and other exempt agencies will continue to obtain their stoves under the priority order system of the War Production Board. Similarly persons who need stoves in projects authorized by that Board will continue to follow the procedure now used. The stoves obtained by these users will not be charged to civilian supply quotas.

#### ARTICLE I—SCOPE

**SECTION 1.1 Territorial limitations.** This order shall apply to the Territory of Puerto Rico.

**Sec. 1.2 Effect on other orders.** This order shall not be construed to permit any act which would be in violation of any other order issued by the Office of Price Administration or the War Production Board.

**Sec. 1.3 Stoves covered by this order.** (a) This order covers new cooking stoves designed for use in the household, for installation on or above the floor, and for the use of kerosene, gasoline or gas as a fuel. The order does not cover any equipment which has been used more than six (6) months, nor does it apply to electric, charcoal or alcohol stoves, gas hot plates, gas laundry stoves, furnaces, water heaters, laundry stoves having built-in water jackets or coils, or wood-burning sheet metal stoves which are not equipped with grates or cast iron base or linings, or equipment specially

designed for commercial, industrial, agricultural or institutional use.

**Sec. 1.4 How stoves are rationed.** (a) Stoves are rationed among eligible consumers through the issuance by boards of certificates on OPA Form PR-R-801. The eligibility requirements are given in section 2.3. A certificate may be used to buy or acquire only the type of stove shown on its face.

(b) The total number of certificates which a board may issue to consumers is limited by quotas set for that board during periods fixed by the Office of Price Administration.

(c) This order is not intended to limit or restrict the quantity of stoves obtainable by the Army, Navy, Marine Corps, Coast Guard, War Shipping Administration or Maritime Commission of the United States (called exempt agencies in this order) or by agencies of the United States or other persons to the extent to which they acquire stoves for export to and consumption or use in any foreign country or territory or possession of the United States (other than the District of Columbia) or, by agencies of the United States or other persons to the extent to which they acquire stoves for installation in a project when such installation has been specifically authorized by the War Production Board by the issuance of an order in the series designated P-19, P-55 or P-110. Transfers to or for these agencies or persons are made under applicable priority orders of other agencies of the United States.

#### ARTICLE II—CONSUMERS

**Sec. 2.1 Who is a consumer.** (a) Any person who needs or has acquired a new cooking stove for any use is a consumer. The term consumer includes also: (1) a lessor of premises who needs or has acquired a new cooking stove for the use of a tenant occupying such premises, or who installs in such premises for the use of his tenant, a new cooking stove he holds for sale or other transfer; (2) a person who needs or has acquired a new cooking stove for installation in premises which he is offering for rent, or who installs in such premises a new stove he holds for sale or other transfer; and (3) any person who uses a new cooking stove which he holds for sale or other transfer, except that a dealer is not a consumer as to a stove he demonstrates or exhibits as part of the business of transferring stoves.

(b) However, an exempt agency or a person acquiring a new cooking stove for export or for installation in a project authorized by the War Production Board by the issuance of an order in the P-19, P-55, or P-110 series (unless the person to whom the War Production Board authorization was issued is relieved from the responsibility for installing a stove in that project by the National Housing Agency) that is, a person or agency specified in section 1.4 (c) is not a consumer within the meaning of this order.

**Sec. 2.2 Consumer may not order a stove without a certificate.** (a) No offer or order from a consumer for the purchase or acquisition of a new cooking

stove may be accepted by any person unless and until the consumer gives up to that person a certificate for that type of stove. Nor may a new cooking stove be transferred to, or acquired by a consumer unless he gives up to the transferor a certificate for that type of stove.

**SEC. 2.3 Eligibility requirements.** (a) Any consumer who needs a new stove for cooking in essential living or working premises or in premises in which there is carried on an activity which contributes to the war effort or to the public welfare (or who needs a cooking stove for installation in premises which are rented or are being offered for rent as essential living space) is eligible for a certificate for any type of cooking stove, if he comes within at least one of the following classes:

(1) He has no equipment for that purpose; or

(2) He has for that purpose only equipment which is worn out or damaged and cannot be repaired within a reasonable time or at a reasonable cost; or

(3) He has only gas equipment which cannot be used because the War Production Board prohibits the use of the parts or materials needed to install such equipment or because such parts or materials are not available; or

(4) He has for that purpose only electric equipment and electricity for its operation is not available, or he has for that purpose only gas equipment and gas for its operation is not available, or he has for that purpose charcoal equipment and charcoal is not available; or

(5) He has for that purpose only gas equipment using liquified or bottled gas and the necessary materials are not available; or

(6) He has for that purpose only equipment the use of which is prohibited by the law of Puerto Rico.

(b) Any consumer who needs a stove for experimental or scientific purposes or for use in connection with a technological process may apply for a certificate. The application must be made as provided in section 2.4 to the board serving the area where the stove is to be used, showing:

(1) The name and address of the applicant;

(2) The type of stove needed; and,

(3) The reason it is needed.

**SEC. 2.4 How application is made for certificates.** (a) A consumer may apply for a certificate on OPA Form PR-R-900. The application must be made in person by the consumer or by someone acting for him. The application may be made only to the "Board" serving the area where the stove is to be used. Separate applications must be made for each type of stove for which a certificate is sought.

**SEC. 2.5 How boards issue certificates.** (a) The Board may issue a certificate to the applicant on OPA Form PR-R-901 for the number of stoves to which he is entitled, if it finds

(1) That the applicant is eligible for the certificate applied for;

(2) That he has not without good cause in the six (6) months period before the date of his application sold or otherwise transferred cooking equipment

which is adequate for the purpose for which the application is made;

(3) That the stove is required for use in the area served by the board; and

(4) That the quota for that board will not be exceeded by the issuance of the certificate.

The board must issue a separate certificate for each type of stove, and must indicate on the face of each certificate at the time it is issued, in addition to the other information required by the form, the type of stove which may be acquired. However, no board may issue a certificate for a gas cooking stove if gas service will not be available for its operation. Nor may a board issue a certificate for a stove if it will be used to acquire a stove for a project in which the installation of a stove of that type is specifically authorized by the War Production Board by the issuance of an order in the series designated P-19, P-55 or P-110 unless the National Housing Agency has relieved the person to whom the order was issued from the responsibility for installing a stove of that type in that project.

last day of the month. The first such report shall be for the month of July, 1944 and shall be filed on or before August 5, 1944. Subsequent monthly reports shall be filed on or before the fifth day of the month following the month covered by the report.

Such records shall be held for so long as new cooking stoves are rationed in the Territory of Puerto Rico.

**SEC. 3.4 Records may be inspected.** (a) All records kept under this order may be inspected by the Office of Price Administration, through any authorized representative. The inspection may be made at a person's place of business during regular business hours. **SEC. 3.6 Transfer of a continuing business—**(a) When any person sells or transfers to any other person his dealer establishment for continued operation by the person who acquired it, the person transferring the business shall give to the person acquiring it his registration form and all certificates that he has at the time the business is sold. (The certificates must be signed by the person transferring the business.)

(b) Within fifteen (15) days after the transfer, the person acquiring the business must file an application on OPA Form PR-R-902 for registration as a dealer.

Certificates may be issued only to the persons and for the purposes permitted by this order, and shall only be valid in the hands of a consumer for a period of 30 days after date of issuance.

(b) *Number and type of stoves must be designated on certificate.* The certificate must show on its face the number of stoves and type which may be acquired with it, the name of the person for whom it is issued, the place where the stove is to be used, and must be signed by the appropriate official of the Office of Price Administration.

(c) A certificate which is not filled out in the way required by this section is not good for the acquisition of any stove

covered by this order and shall not be used or accepted for that purpose.

**Sec. 4.3 Endorsement of certificates.** A certificate cannot be used until it is signed on the back by the person in whose name it is issued, or by a person authorized to sign for him.

**Sec. 4.4 Combining and splitting up certificates.** (a) A board may issue one certificate for two or more certificates, or it may issue two or more certificates for a certificate. The certificates issued must be for the same number and type of stoves designated on the certificates surrendered to the board for exchange. The board shall issue the new certificate in the manner required by section 4.1, and it shall retain in its files the certificate surrendered.

**Sec. 4.5 How to replace lost, stolen, destroyed, damaged or mutilated certificates.** (a) Any person who has lost a certificate, or whose certificate was stolen or destroyed, or who has a certificate that is damaged or mutilated so that it is unfit for use, may apply to the issuing board for its replacement. The application must be in writing and must state:

(1) The applicant's name and address;

(c) Whenever a lost, stolen or destroyed certificate which has been replaced under this section is found or recovered, it must be immediately sub-

#### PART 95—CAR SERVICE

##### ICING AND REICING OF FRUITS AND VEGETABLES IN DESIGNATED SOUTHERN STATES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 12th day of June, A. D. 1944.

It appearing that there is a shortage of ice in certain areas and the establishment of the use of a modified refrigeration service known as half-stage icing for citrus fruit originating in Florida; and otherwise limiting refrigeration to three-fourths bunker capacity on cars of fruits and vegetables originating in Florida and on vegetables originating in Alabama, Georgia, Kentucky, Mississippi, Louisiana (east of Mississippi River), South Carolina, North Carolina, and Tennessee, will result in economy of motive power, manpower, and ice; the Commission is of the opinion that an emergency exists requiring immediate action: it is ordered, that:

*Half-stage icing*—(a) (1) *Definition.* The term half-stage icing as used herein means using only the upper halves of the bunkers of refrigerator cars for carrying ice, this being accomplished by setting the ice grates at a point approximately midway between the bottom and top of the bunkers.

(2) *Furnishing refrigerator cars equipped for half-stage icing for loading with Florida citrus.* When refrigerator cars equipped for half-stage icing are available at the point of origin when shipment is ordered to be initially iced after loading, and at the icing station where cars are to be initially iced when initial icing is ordered prior to loading, and the railroads can so furnish refrigerator cars equipped for half-stage icing without additional switching service in excess of that normally required for initial icing, all common carriers by railroad subject to the Interstate Commerce Act operating in the State of Florida, in complying with a shipper's order for a refrigerator car, shall give priority to the furnishing of and shall furnish refrigerator cars equipped for half-stage icing for loading with citrus fruit originating in the State of Florida, and shall furnish refrigerator cars not equipped for half-stage icing only when cars so equipped

are not available as specified in this paragraph.

(3) *Carriers required to furnish half-stage icing service on refrigerator cars equipped for half-stage icing.* No common carriers by railroad subject to the Interstate Commerce Act shall permit, accord or authorize other than half-stage icing service on any refrigerator car equipped for half-stage icing, ordered for loading with, or loaded with citrus fruit originating in the State of Florida when available and furnished in accordance with the provisions of paragraph (a) (2) of this regulation.

(b) *Icing and reicing on fruits and vegetables restricted to three-fourths bunker capacity.* No common carrier by railroad subject to the Interstate Commerce Act, on any refrigerator car loaded with fruits or vegetables originating in the State of Florida, or loaded with vegetables originating in the States of Alabama, Georgia, Kentucky, Mississippi, Louisiana (east of the Mississippi River), South Carolina, North Carolina, or Tennessee, shall initially ice or reice, or allow or permit initial icing or reicing, with more ice than is necessary to bring the ice in each bunker up to, but not above, three-fourths of that bunker's capacity. This paragraph shall have no application on cars restricted to half-stage icing under the provisions of paragraphs (a) (2) and (3) of this regulation.

(c) *Application.* The provisions of this order shall apply only to shipments billed on and after the effective date of this order originating in the States listed in paragraph (b) of this section, except that when a shipment has been unloaded under a transit arrangement the provisions of this order shall apply such shipment if billed at the transit point on or after the effective date of this order.

(d) *Tariff provisions suspended.* The operation of all tariff rules, regulations, or charges insofar as they conflict with the provisions of this order is hereby suspended.

(e) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement to each of its tariffs affected thereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

(f) *Special and general permits.* The provisions of this order shall be subject to any special or general permits issued by the Director of the Bureau of Service, Interstate Commerce Commission, Washington, D. C., to meet specific needs or exceptional circumstances. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 49 U.S.C. 1 (10)-(17))

*It is further ordered, That* this order shall become effective at 12:01 a. m., June 13, 1944, and shall supersede Service Order No. 210 on the effective date hereof; that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per

diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

[Docket G-552]

#### SOUTHERN NATURAL GAS COMPANY

##### NOTICE OF APPLICATION

JUNE 13, 1944.

Notice is hereby given that on June 1, 1944, Southern Natural Gas Company, a Delaware Corporation having its principal place of business in Birmingham, Alabama, filed with the Federal Power Commission its application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, to authorize the construction and operation of the facilities hereinafter described.

The proposed construction consists of a 4½-inch O. D. gas pipe line approximately five miles in length, commencing at a point of connection with an existing pipe line belonging to Tennessee Coal, Iron and Railroad Company near its Wenonah sintering plant and extending to the Spaulding sintering plant of Republic Steel Corporation near Spaulding, Jefferson County, Alabama, together with appropriate metering and pressure regulating equipment, for direct sale of natural gas to Republic Steel Corporation for sintering of iron ore; installation of seven air-cooled mufflers to be installed on seven 1,300 horsepower gas compressors at its Perryville, Louisiana, compressor station; installation of two gas scrubbers to be installed at applicant's existing dehydration plant at Logansport, Louisiana; and appurtenant facilities consisting principally of meters, tap lines, valves, regulators, etc.

Applicant asserts that the facilities other than the pipe line whereby it proposes to transport, sell and deliver natural gas to the Republic Steel Corporation, which is engaged in war production, will provide an additional safety factor in order to assure continuity of applicant's present operations which include natural gas service to many industries engaged in war production.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 29th day of June, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

## SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-896]

GENERAL GAS & ELECTRIC CORP.

MEMORANDUM OPINION AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 12th day of June, A. D. 1944.

*Declaration of dividends out of capital surplus.* Declaration by registered holding company pursuant to section 12 (c) and Rule U-46 permitted to become effective with respect to the payment of dividends to prior preferred shareholders out of capital surplus where no prejudice to security holders or public is found.

*Appearances:* William W. Golub, for General Gas & Electric Corporation. David I. Bursten, for the Public Utilities Division of the Commission.

General Gas & Electric Corporation (hereinafter called Gengas) a registered holding company, which is a subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation (hereinafter called Trustees) a registered holding company, has filed a declaration pursuant to section 12 of the Public Utility Holding Company Act of 1935 (the act) in which it proposes to pay out of capital or unearned surplus the accumulated and unpaid dividends amounting to \$5 per share on its \$5 prior preferred stock, no par value, for the period from March 16, 1943, to March 15, 1944, and also a quarterly dividend on the same stock for the quarterly period ended June 15, 1944.

The entire issue outstanding is 60,000 shares, of which 27,889.1 shares are held by the Trustees, who have, by a letter dated May 26, 1944, waived their right to collect such quarterly dividends, until further order of the Commission. The number of shares in the hands of the public is 32,110.9 (of which 8.9 shares are held in script, and such script will not receive a dividend) so that \$200,637.50 will be required to make the dividend payment.

After appropriate notice, a public hearing was held. No one appeared at the hearing to oppose the proposed dividend payment. Having considered the record therein, the Commission makes the following findings:

As at February 29, 1944, the assets of Gengas, per books, available for security holders totalled \$28,290,978. The only securities of, or claims against, Gengas which, according to its books, are senior to the \$5 Prior Preferred Stock, consist of certain obligations payable to the Trustees. These obligations, including interest thereon, aggregate \$3,004,103.

No. 119—5

The books of Gengas, as of February 29, 1944, reflect an earned surplus deficit of \$3,873,883; the capital surplus is shown as \$13,371,147.

Net income of Gengas for the twelve months ended February 29, 1944, amounted to \$583,834. As at February 29, 1944, Gengas had cash on hand in the amount of \$735,382 and United States Treasury Certificates costing \$1,500,000. Since that date the company has received an additional \$1,854,000 from the sale of its interest in Virginia Public Service Company (Virginia Public Service Company—S. E. C.—Holding Company Act Release No. 5021 (April 29, 1944)).

A cash forecast for the eight months ending December 31, 1944, submitted by the company in connection with the filing, indicates that Gengas will be able to meet all its cash requirements, continue to maintain an adequate cash balance, and pursue its present dividend policy. The forecast contemplates that at the end of the period the cash balance will be \$2,742,835.

This is the tenth time that Gengas has filed a declaration to pay a dividend on its publicly held Prior Preferred Stock out of capital surplus. We have on each occasion considered that the assets of Gengas were substantial in relation to the size of the proposed dividend, and that the Prior Preferred Stock is, by its terms, entitled to be paid dividend arrearages in full before dividends can be paid on the other preferred stocks. These same factors are equally cogent with regard to the present declaration.

We make no adverse findings under the applicable sections of the act and rules promulgated thereunder.

*It is therefore ordered,* That, pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935, the said declaration, as amended, be, and hereby is, permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U-24 of the general rules and regulations.

Notice is hereby given that an amendment has been filed to a joint application or declaration heretofore filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The United Gas Improvement Company (U. G. I.) a registered holding company, and Harold C. Payson (Payson) and that an application or declaration has been filed pursuant to the Act by Manchester Gas Company (Manchester) a subsidiary of U. G. I.

Notice is further given that any interested person may, not later than June 23, 1944, at 10:00 a. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. All interested persons are referred to said applications or declarations, which are on file in the office of the said Commission, for a statement of the transactions therein proposed, which are summarized below:

The original joint application-declaration of U. G. I. and Payson proposed the sale by U. G. I. and the purchase by Payson for \$33,000 cash, of 840 shares of 7% Cumulative Preferred Stock (\$100 par value) and \$4,200 shares of common stock (\$100 par value) of Manchester, said stock representing all of U. G. I.'s holdings of securities in Manchester.

A public hearing was held in respect of these matters, but prior to Commission action thereon, Payson assigned his purchase agreement with U. G. I. to Manchester for a cash consideration of \$5,000. U. G. I. thereupon amended its pending filing and Manchester filed an application-declaration, pursuant to which it is now proposed that Manchester will buy and retire and U. G. I. will sell for \$33,000 cash the shares of Manchester's preferred and common stock presently owned by U. G. I. In connection therewith, Payson has requested the withdrawal of his application-declaration.

("Santo Domingo Company")

Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said documents, which are on file in the office of the Commission, for a statement of the transactions therein proposed, which are summarized as follows:

All the securities of Islands are owned by Consolidated. Islands owns all of the securities of Haiti Company and Santo Domingo Company, including certain demand notes in the principal amount of \$414,000 of Haiti Company and certain demand notes in the aggregate principal amount of \$2,382,503 of Santo Domingo Company. It is proposed that, out of treasury assets, the Haiti Company pay sums not in excess of \$100,000 in the aggregate and that the Santo Domingo Company pay sums not in excess of \$500,000 in the aggregate to Consolidated in

reduction of the principal owing on their respective notes, such payments to be made from time to time during the remainder of 1944. Said notes are pledged with the Trustee securing the Islands Ten Year 4% Secured Bonds, Series B, due March 1, 1953. Under the terms of said Indenture, such payments of principal on pledged notes are required to be deposited with the Trustee under said Indenture and said Trustee will apply the funds to be received to the retirement of a like amount of Bonds of Islands. All of said Bonds of Islands outstanding in the principal amount of \$2,143,500 are owned by Consolidated and are pledged under the lien of the Trust Indenture of Southern Cities Utilities Company (assumed by Consolidated) securing an issue of Thirty Year 5% First Lien and Collateral Trust Gold Bonds, due April 1, 1958. Under the terms of said Indenture, such payments of principal to retire pledged Bonds of Islands are required to be deposited with the Trustee under said Trust Indenture. In accordance with the terms of said Trust Indenture, Consolidated will apply such funds or a like amount to acquire outstanding bonds of Southern Cities Utilities Company by purchase in the open market and such purchased bonds will be surrendered to the Trustee for cancellation against the withdrawal of such deposited funds at the purchase cost of said Bonds, exclusive of accrued interest.

Consolidated now holds \$300,000 in cash representing the unexpended balance of the Federal tax savings resulting from sales by subsidiary companies of their respective properties at amounts below the tax cost to them and the accrual of such tax savings to Consolidated as a result of the amendment to the tax agreement between Consolidated and certain of its subsidiary companies which joined in the filing of consolidated Federal income and excess profits tax returns for 1943. Consolidated now proposes to use such tax savings funds in the amount of \$300,000 to acquire outstanding Bonds of Consolidated or Southern Cities Utilities Company bonds through purchases in the open market, such bonds to be surrendered for cancellation by Consolidated to the Trustee under the Indenture securing said Bonds.
